

NSW Foundation Spatial Data Framework: Administrative Boundaries Theme

Dataset/product title: Suburb

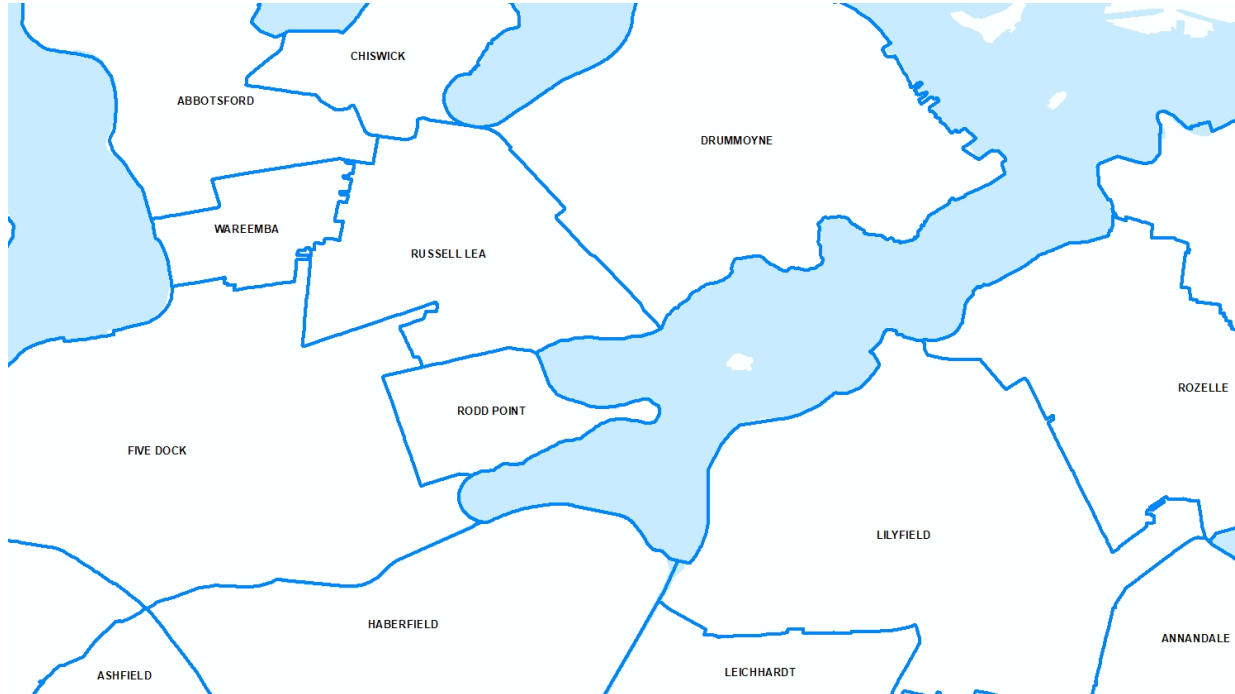

Image depicts a sample of the Suburb dataset © DFSI Spatial Services 2018

<p>Dataset/product description</p>	<p>Suburb dataset represents the gazetted boundary of a suburb or locality area. The Geographical Names Board (GNB) is responsible for new suburb names and amendments to the extent of a suburb boundary. The dataset also contains post codes that are held against each suburb, sourced and matched from Australia Post. It is a polygon feature class within the NSW Digital Cadastral Database (DCDB).</p>
<p>Dataset uses</p>	<p>Administrative boundary data underpins the economic, social and environmental fabric of NSW and is used, amongst other things, to:</p> <ul style="list-style-type: none"> • define addresses in NSW • secure tenure for access to capital • define allowable use of land • manage native title, nature conservation, heritage protection, defence, and disaster management • improve infrastructure and property development planning • inform water and carbon accounting programs.

<p>Current status</p>	<p>The Suburb dataset is up to date as per the current boundaries determined by the GNB.</p> <p>Coincidence with the cadastral fabric is maintained where required and the spatial accuracy of the Suburb dataset reflects that of the cadastral fabric.</p> <p>The attributes 'create date' and 'modified date' provide information on the features' temporal accuracy. There is no overall accuracy reported in the database. Any changes that occur to the dataset should have a reference in the authority of reference feature class in the DCDB.</p>
<p>Standards and specifications</p>	<p>Metadata for the relevant Spatial Services datasets are required to comply with AS/NZS ISO 19115 ANZLIC Metadata Profile v1.1, ISO 19115-2 and ISO 19139.</p>
<p>Access and licensing</p>	<p>Spatial Services, a division of the Department of Finance, Services and Innovation (DFSI) creates and manages Intellectual Property for the Crown in right of New South Wales.</p> <p>Acquisition of this data is subject to the customer entering into an appropriate Creative Commons license agreement.</p> <p>To the extent that Creative Commons licensing applies, all data and other material produced by Spatial Services constitutes Crown copyright.</p> <p>Spatial Services has applied the Creative Commons Attribution 3.0 Australia Licence. Spatial Services asserts the right to be attributed as author of the original material in the following manner:</p> <div data-bbox="536 1370 951 1518" data-label="Image"> </div> <p>© Spatial Services [date of extraction]</p> <p>Additional terms for the use of Spatial Services material</p> <p>Any derived products which are created will be required to clearly mark the date that any extractions from the Spatial Services Spatial Database occurred.</p> <p>All Intellectual Property which is owned by Spatial Services should only be loaded on any external cloud platforms if Spatial Services' Intellectual Property remains unchanged, maintained and preserved.</p>

Metadata	Suburb Boundaries
Updates	The dataset is updated to reflect changes in boundaries as gazetted by the Geographical Names Board of NSW.
