Source: DET, Planning and Innovation Class size audits conducted in 1997, 2003, 2004, 2005, 2006, 2007, 2008, 2009 and 2010.

Notes:

Class size audits were not conducted in 1998, 1999, 2000 and 2001.

Students attending schools for specific purposes (SSPs), students in support classes in regular schools and distance education students are excluded from average class size calculations.

The average class size for each year level is calculated from regular and multi-age classes that contain a student from that year level.

Explanatory Notes

Each year the education departments of all states and territories in Australia, and the Commonwealth Department of Education, Employment and Workplace Relations collect data on government and non-government schools, and their students. Since 1994 the date for collection has been the first Friday in August as close as possible with the national census of population and housing conducted every five years. The 2010 census of NSW Government schools was conducted on August 6th. Initial results were published in *In Brief: Midyear Census 2010*.

In 1996, there were changes to the collection dates for some of the information reported in this bulletin. Data on students by age, gender and year of schooling, for all students and for Aboriginal and Torres Strait Islander students, are collected at the midyear census. Data on students of non-English speaking background are collected in Term 1.

This Bulletin consolidates data from DET Term 1 and midyear data collections. It also reports on Non-Government data collected by the Commonwealth Department of Education, Employment and Workplace Relations.

Government and Non-Government school data form part of the National Schools Statistics Collection which is reported annually by the Australian Bureau of Statistics in *Schools Australia* (Catalogue No. 4221.0).

Primary and Secondary Students

Primary enrolments consist of students in Kindergarten to Year 6; secondary enrolments consist of students in Years 7 to 12. Students in composite classes and students enrolled at distance education centres are counted according to their year of schooling. Following the introduction of part-time study in secondary schools in 1993, student enrolments are generally reported in full-time equivalent units (FTE).

Central/Community Schools

Central/Community schools have primary and secondary departments and may be established where there is an enrolment in secondary classes of 20 or more. Enrolments in primary departments and secondary departments are included with the appropriate student data.

Schools for Specific Purposes

Schools for specific purposes (SSPs) are for students with specific needs. Students in SSPs are not assigned to a year of schooling but are reported according to their type of specific need. Students with multiple disabilities are reported according to their main disability.

Most schools for specific purposes have permanent enrolments and include schools for students with intellectual (mild, moderate and severe) and physical disabilities, visual or hearing impairment, behaviour disorders or emotional disturbance, and students in juvenile justice centres. Some SSPs have no permanent enrolments because the children temporarily attending them are enrolled and counted in their own schools. These are mainly hospital schools.

Support Classes

Some students with specific needs are enrolled in support classes in primary, secondary and central schools. Students enrolled in support classes are not enrolled in a particular year of schooling but are reported separately according to their type of specific need. Support classes for students of mixed abilities are classified according to the predominant type of specific need present in the class. Support class enrolments are included with other primary and secondary enrolments in some tables; other tables combine enrolments in support classes in ordinary schools with enrolments in SSPs.

Distance Education

Distance education centres (DECs) provide schooling for isolated students unable to attend a regular school. They operate either as separate schools or as units within regular primary, central and high schools. Students enrolled in DECs are counted in their corresponding years of schooling.

In conjunction with the Open High School, DECs also provide individual subject enrolment, widening study opportunities for secondary students. These students are enrolled and counted at their home schools.

Part-time Students

In most tables part-time students are included with full-time students and counted in full-time equivalent units (FTE). For the annual census, a full-time student is enrolled in 10 or more units for Year 11, 10 or more units for Year 12, regardless of where those units are studied. The FTE for Year 11 and 12 students studying less than 10 units is determined by the formula: $0.1 \times$ the number of units studied. Students enrolled for more than the minimum workload are equivalent to 1.000. All students in K-10 are considered to be full-time.

Aboriginal and Torres Strait Islander Students

Students are counted as Aboriginal or Torres Strait Islanders (A&TSI) if they are identified and accepted as such by the community with which they are associated, and they identify themselves on the School Enrolment Form.

Students of Language Background other than English

Students are counted as being of language background other than English (LBOTE) if in their home a language other than English is spoken by the students, parents, guardians, siblings or other relatives.
