

NSW Foundation Spatial Data Framework: Administrative Boundaries Theme

Dataset/product title: County

Image depicts a sample of the County dataset © DFSI Spatial Services 2018

Dataset/product description	County depicts the boundaries of 141 divisions of the State of New South Wales created for management and disposal of Crown Lands. It is a polygon feature class within the NSW Digital Cadastral Database (DCDB).
Dataset uses	Land and property data underpins the economic, social and environmental fabric of NSW and is used, amongst other things, to: <ul style="list-style-type: none">• secure tenure for access to capital• define allowable use of land• manage native title, nature conservation, heritage protection, defence, and disaster management• improve infrastructure and property development planning.

<p>Current status</p>	<p>County is a historical layer and the information was gathered from original paper maps which were held by Spatial Services. It can however be updated (if necessary) after a manual title inspection.</p> <p>The County dataset is up to date and complete state wide.</p> <p>Coincidence with the cadastral fabric is maintained where required and the spatial accuracy of the County dataset reflects that of the cadastral fabric.</p> <p>The attributes 'create date' and 'modified date' provide information on the features' temporal accuracy. There is no overall accuracy reported in the database. Any changes that occur to the dataset should have a reference in the authority of reference feature class in the DCDB.</p>
<p>Standards and specifications</p>	<p>Metadata for the relevant Spatial Services datasets are required to comply with AS/NZS ISO 19115 ANZLIC Metadata Profile v1.1, ISO 19115-2 and ISO 19139.</p>
<p>Access and licensing</p>	<p>Spatial Services, a division of the Department of Finance, Services and Innovation (DFSI) creates and manages Intellectual Property for the Crown in right of New South Wales.</p> <p>Acquisition of this data is subject to the customer entering into an appropriate Creative Commons license agreement.</p> <p>To the extent that Creative Commons licensing applies, all data and other material produced by Spatial Services constitutes Crown copyright.</p> <p>Spatial Services has applied the Creative Commons Attribution 3.0 Australia Licence. Spatial Services asserts the right to be attributed as author of the original material in the following manner:</p> <div data-bbox="525 1469 940 1615" data-label="Image"> <p>The image shows the Creative Commons Attribution-NonCommercial 3.0 Australia License logo. It consists of three circular icons in a row: the first contains the letters 'CC', the second contains a stylized person icon, and the third contains an equals sign. Below these icons, the letters 'BY' and 'ND' are displayed in a black bar.</p> </div> <p>© Spatial Services [date of extraction]</p> <p>Additional terms for the use of Spatial Services material</p> <p>Any derived products which are created will be required to clearly mark the date that any extractions from the Spatial Services Spatial Database occurred.</p> <p>All Intellectual Property which is owned by Spatial Services should only be loaded on any external cloud platforms if Spatial Services' Intellectual Property remains unchanged, maintained and preserved.</p>
